RELEASE DATE:**For Immediate Release****LEAFWERX' RESPONSE TO COVID-19**

EAST WENATCHEE, Washington, March 16, 2020 — This press release serves to communicate the proactive measures that Leafwerx enacted to address the COVID-19 situation.

We wanted to reach out today and assure you that we are closely monitoring the coronavirus (COVID-19) situation and are working to ensure that we continue to meet the needs of our retail partners as well as assure the health and safety of consumers, employees of retailers and our employees alike. Though the situation around the virus remains fluid, our goal is to meet or exceed all provided guidelines.

Here are some of the proactive steps we've quickly taken to over deliver on our promise to you:

1. We're adhering to high standards of cleanliness for production, packaging and delivery with COVID-19 specific measures in place:

All product handling areas as well as common areas are cleaned and disinfected 3 times per day, beginning, middle and end of each work day.

All packagers are required to wear nitrile disposable gloves at all times, are stationed 6 feet apart, and follow sanitary best practices.

All delivery drivers are required to clean totes with disinfectant wipes and wear fresh nitrile disposable gloves for each delivery.

2. We're encouraging our workers to play it safe and not come physically to work if there is any question of health or infection.

Work from home, paid time off, and sick days are all being deployed for our employees who have any uncertainty as to their own health and infection.

3. We're adjusting our in-store presence:

In concordance with social-distancing best practices, we are reducing the in-person interactions we are having in-stores. Our sales representatives will still visit for confirmed, scheduled meetings, but will reduce other store visits and reschedule vendor days.

4. We're ramping up our digital communication:

Look for more content on our website and our social platforms like Instagram, Spotify, Youtube, Toptender and Snapchat. We're taking this opportunity to tell more stories to people who may have more time to engage with them.

5. We're excited for the rest of the year:

We are continuing to ramp up our production capability, our Full Spec line is just getting started, we have new Leafwerx products in the pipeline, and plenty of exciting engagements and events on the horizon. Stay tuned to get the latest on these.

Safety and wellbeing remain our foremost priority. We will continue to operate with the utmost commitment to cleanliness as well as continue to monitor developments and updates from federal, state, and local agencies.

Feel free to call or email with any questions.

Your partners at Leafwerx.

Sincerely,

Whitney Bloom
